About the program

The MBA International Management at Pforzheim Business School provides the academic and professional edge by following a two-tier strategy that will equip our students with distinct competitive advantages for the business of tomorrow. International, generalist and profound classical management foundations are integrated with the most relevant future topics: Innovation Management and Sustainable Globalization.

It is the aim of the MBA International Management program to enable our students, as future managers, to meet these challenges for the benefit of their companies. More than 80% of Pforzheim MBA students are internationals, coming from all continents. Global, intercultural networking begins right in the classroom.

Contact

We would be happy to cooperate with you!

There are many different ways to interact with our MBA program as a whole and our students on small group or individual basis:

Company Visits: Plant tours, presentations and direct contact with managers and HR personnel help our students to get in touch with German industry. Let your company be part of it!

Companies in Classroom: We regularly invite experts of companies into our classroom. This gives our students the opportunity to discuss current business issues and career perspectives with high-level executives. If you are in the Pforzheim region, we would be happy to welcome you to our classroom.

Company Projects: If your company faces questions or challenges where an outside perspective from motivated students could be beneficial, our Company Projects are a great opportunity for your company! From September until January, a small group of 3–5 students works on your question under the supervision of a professor.

Thesis/Internships: In their fourth semester, our students write their theses. As there are no courses from mid February until August, our students are free to work with your company regarding a thesis project or internship.
